- Organiser's website: <http://segelflug-f3j.dmfv.aero>
- Contest director: Frank Droge
- Jury: To be selected on site from amongst participants
- Rules: The event will be governed by the official F3J rules of the FAI

Please note the rule changes passed by the CIAM for 2015:

Teams who register 8 or more pilots in a helpers team accept that the change to SC 5.6.4 does not apply. This section of the sporting code* essentially states that pilots who are granted a re-flight can actually only be assigned to a group that does not include any members of their own team. Teams with 8 or more pilots can form 2 teams of helpers.

The changes to SC 5.6.7 effective as of 2015 apply in full:

c.) The only permitted flying during the competition hours are the official competition flights. Other than for ground testing of equipment using 2.4 GHz spread spectrum, any other transmission or any flight shall only take place with the permission of the Contest Director.

d.) A penalty of 300 points shall be applied to any competitor making an unauthorised transmission or flight without the permission of the Contest Director. If this

transmission or flight results in injury to personnel or damage to property, then the competitor will be disqualified from the whole competition.

- Prizes: The participants of the fly-off receive a trophy
The top 3 youth participants will also receive a trophy.
- No. of participants: A maximum of 120 participants will be accepted. If more than 120 registrations are received, registrations will be accepted on a "first come, first serve" basis (cf. "Registration").
- Conditions: Proof of insurance, on-time registration and payment of the entry fee, specification of at least two (2) frequencies if participant is not using 2.4 GHz equipment.
By registering, the participant accepts that, in case of damage to the model aircraft, no claims can be made against the event's organisers or other participants in the event.
All participants using 2.4 GHz equipment must carry the mandatory declaration of conformity for their RC equipment with them at all times and present it upon registration at the event.
Anyone that has not reached their 18th birthday on or before 01.01.2015 is considered a youth.
